COMPANY INTRODUCTION

ENOM TECHNOLOGIES INC is a Canadian-based IT consulting firm specializing in built-for-purpose software development and intelligent business automation. We empower organizations to digitize operations, streamline workflows, and achieve strategic efficiency by developing custom solutions tailored to their exact needs.

Our strength lies in the Microsoft Power Platform and Microsoft 365 ecosystem, where we design, build, and integrate scalable systems that reflect the way your business truly operates, not generic, off-the-shelf software.

> Empowering innovation through smart tech solutions tailored for tomorrow's business challenges.

OUR CORE SPECIALISATION:

Built-for-Purpose Software Development

At **ENOM TECHNOLOGIES**, we don't believe in one size fits all. Every business is unique, and your software should be too.

We design and develop custom applications that are built for purpose, aligning directly with your operational goals, industry requirements, and team workflows.
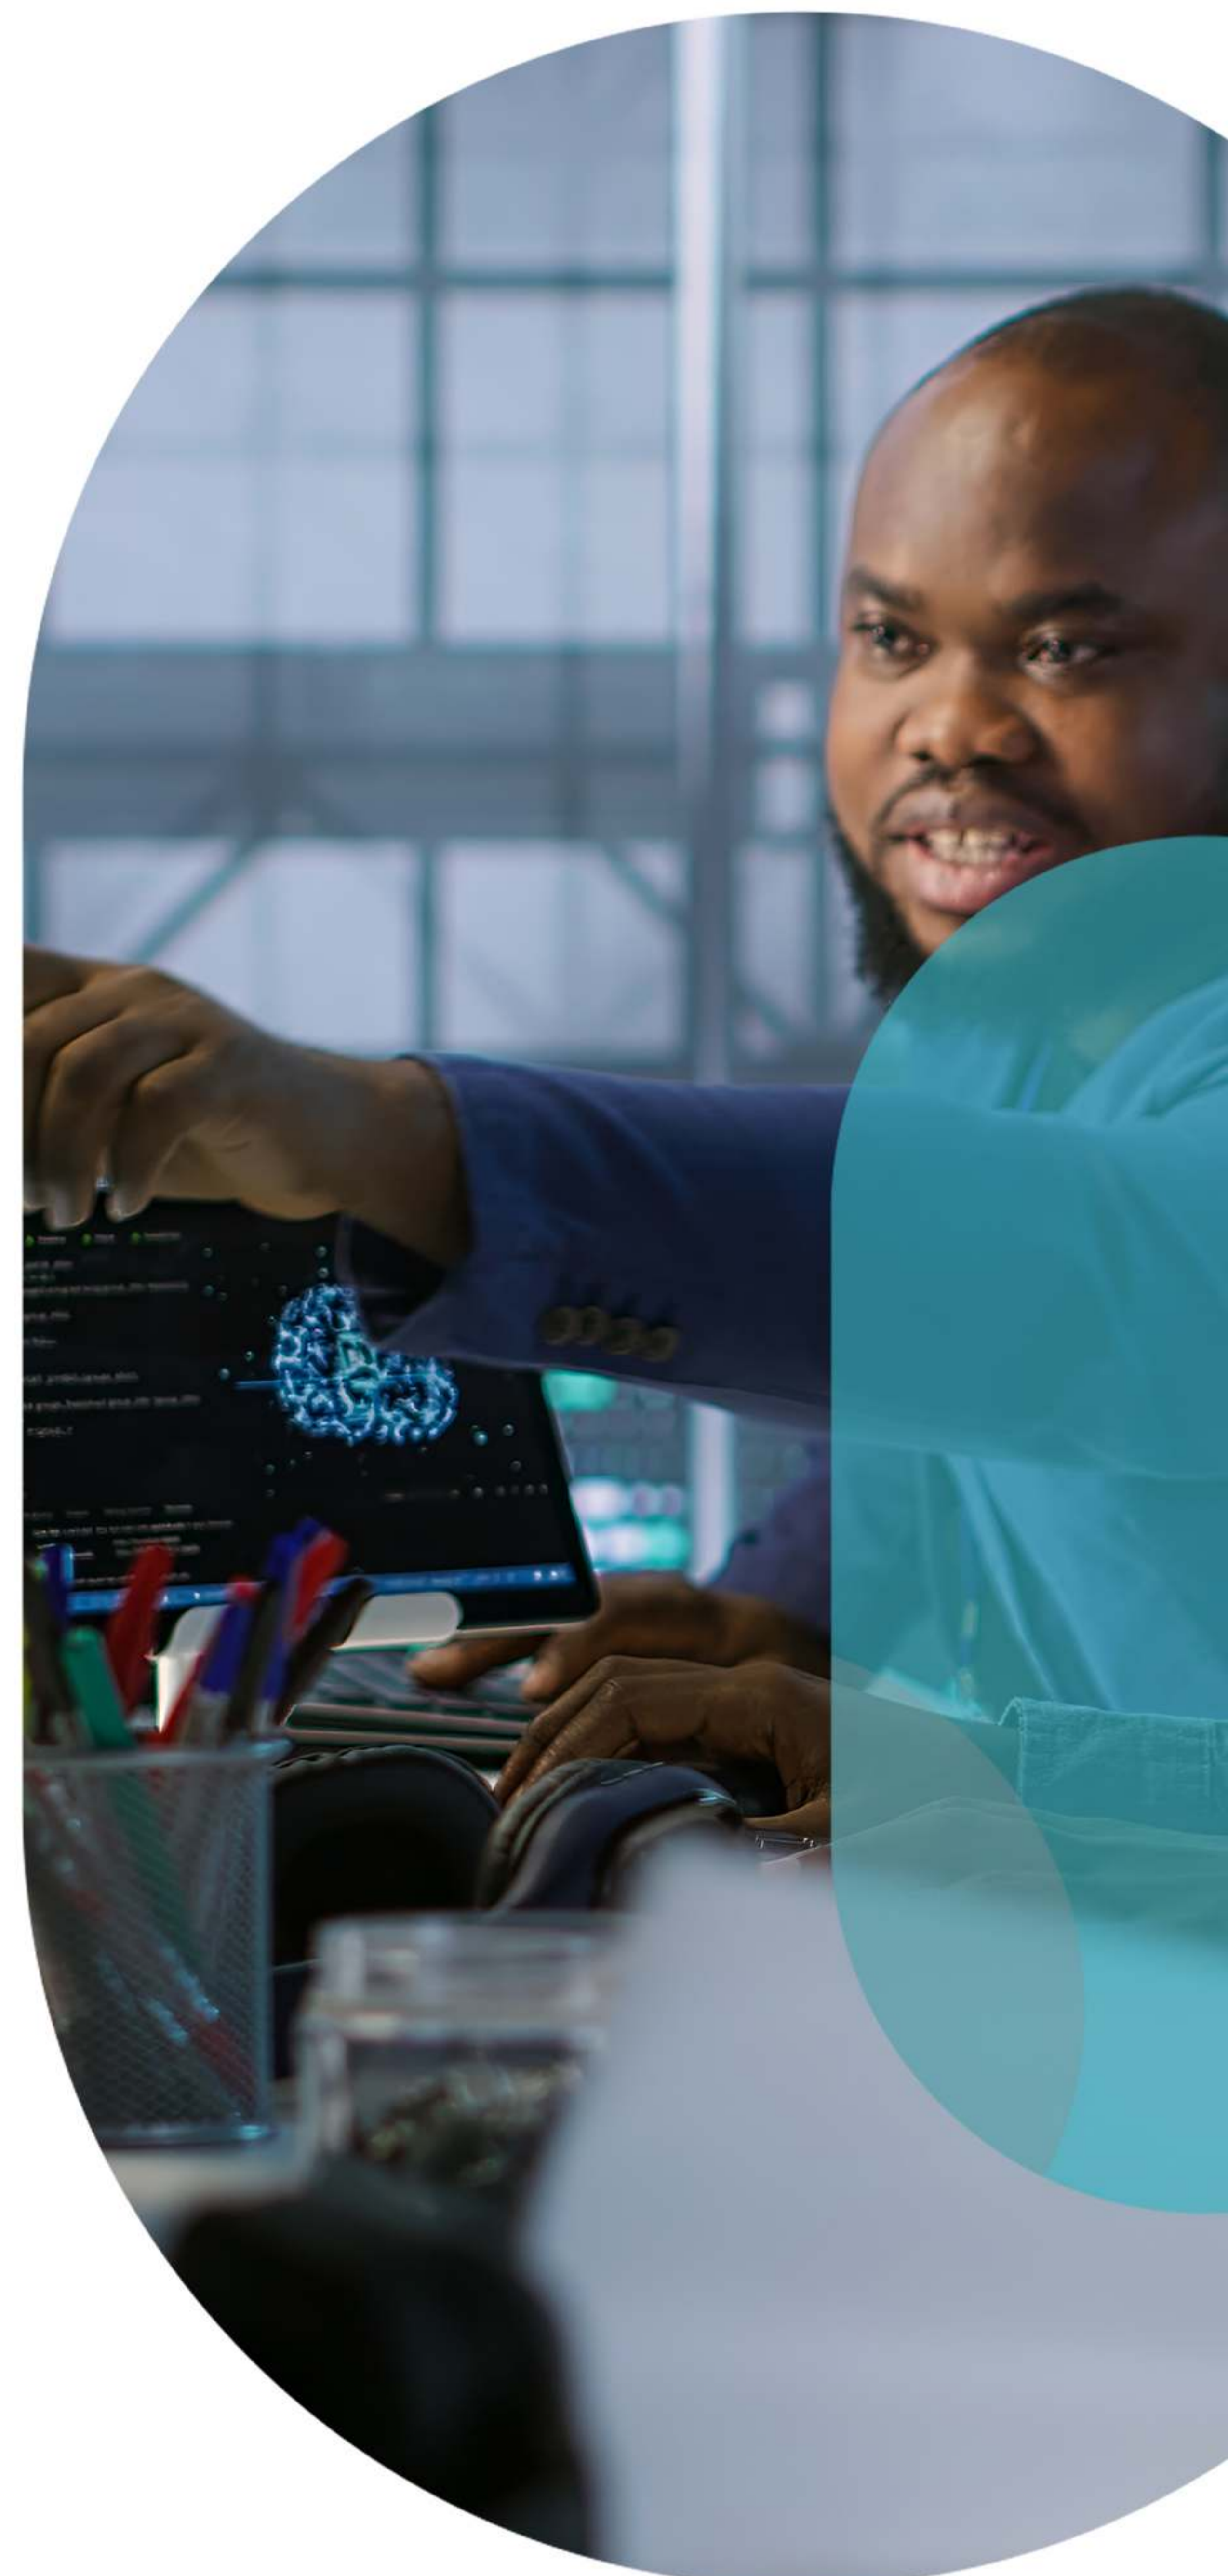

OUR APPROACH INCLUDES:

Requirement-Driven Design:

We begin by understanding your processes and pain points before writing a single line of code.

Low-Code Development with Power Apps:

We build powerful apps faster using Microsoft's low-code tools, without compromising functionality or customization.

Scalable Architecture:

Systems built to grow with your business and adapt to future needs.

Cross-Platform Access:

Applications designed for both desktop and mobile environments.

Power Platform Consulting Services

Our certified Power Platform consultants help you unlock the full potential of Microsoft's suite of business tools:

Power Apps:

Custom business apps built for your unique workflows, rapidly developed and deployed.

Power Automate:

Automation of time consuming manual processes to improve efficiency and accuracy.

Power BI:

Powerful dashboards and real time reporting that support data-driven decisions.

Dataverse Integration:

Secure, structured, and centralized data management for your apps and systems.

We offer full lifecyclesupport, from planning and prototyping to implementation, training, and ongoing optimization.

MISSION

At **ENOM TECHNOLOGIES INC**, our mission is to deliver innovative, reliable, and customized technology solutions that enable businesses to operate more efficiently, collaborate seamlessly, and achieve their strategic objectives.

Through our expertise in Microsoft platforms, cloud services, and IT infrastructure, we strive to become a trusted partner in driving digital transformation and long-term success for organizations of all sizes.

VISION

Our vision is to be a leading force in shaping the future of technology-driven business globally. We aim to set the standard for excellence in IT consulting and digital innovation by continuously evolving our services, empowering our clients through cutting-edge solutions, and building lasting relationships grounded in integrity, expertise, and measurable results.

PURPOSE-BUILT INDUSTRY SOLUTIONS

We've delivered powerful, industry-specific systems that are fully customized to our clients' operations, including:

- **Insurance Client Management**
- **Debt Collection System**
- **Project & Task Management**
- **Real Estate & Property Management**
- **Fixed Asset Maintenance & Tracking**
- **Employee Onboarding/Offboarding**

Each solution is a product of close client collaboration and a commitment to delivering exactly what the business needs, no excess, no limitations.

COMPLEMENTARY
IT SERVICES

To support and strengthen your full technology stack, we offer a comprehensive range of complementary services:

- **Power Platform Consulting -** From advisory to implementation and support for Power Apps, Power Automate, Power BI, and Dataverse.

- **Microsoft SharePoint Consulting -** Customized intranets, document workflows, and collaboration portals.

- **Office 365 Licensing & Cloud Migrations -** Optimized licensing strategies and smooth cloud transitions.

- **Website Development & Hosting -** Responsive, secure, and business-aligned websites.

- **IT Support Services -** Networking, security, backup solutions, CCTV, antivirus, and system troubleshooting.

- **Hardware & Software Supply -** Quality infrastructure for sustained performance.

- **Printing Solutions -** Toner, cartridge, and managed printing services.

- **Training & System Branding -** Ensure staff readiness and solution branding consistency across platforms.

WHY WORK WITH
ENOM TECHNOLOGIES

- **Built-for-Purpose Philosophy:**

  Every solution is tailored, purposeful, and aligned with your business DNA.

- **Deep Microsoft Expertise:**

  Certified Power Platform and Microsoft 365 professionals.

- **Agile, Client-First Development:**

  Certified Power Platform and Microsoft 365 professionals.

- **Unified, Scalable Solutions:**

  Systems designed to evolve with your organization.

- **Proven Track Record:**

  Delivering reliable, real-world systems that drive measurable impact.

Let's Build What Your Business Really Needs

Whether you need to automate internal operations, unlock insights from data, or deploy mobile-ready business tools.

ENOM TECHNOLOGIES INC
is your trusted partner for purpose-built digital transformation.

We don't just deliver software. We deliver
the right software.

UNIQUE SELLING PROPOSITIONS

01 **Tailored Solutions:** Crafting custom-fit applications that align with specific business processes.

02 **User-Friendly Interfaces:** Designing solutions with intuitive interfaces for ease of use.

03 **Agile Development:** Maintaining client involvement throughout the development lifecycle.

04 **Integration with Existing Tools:** Maximizing the utility of current Microsoft 365 tools.

05 **Mobile Accessibility:** Ensuring solutions are accessible on various devices for field operations.

PROJECTS
# COMPLETED

Insurance Client Management Solution

This solution is a comprehensive and scalable insurance client management platform built on Microsoft Power Platform. Leveraging PowerApps, Power Automate, Power BI, and Dataverse, it streamlines client interactions, automates workflows, and provides data-driven insights to enhance operational efficiency and client satisfaction

Shaping the future with tailored tech solutions that elevate your business performance.
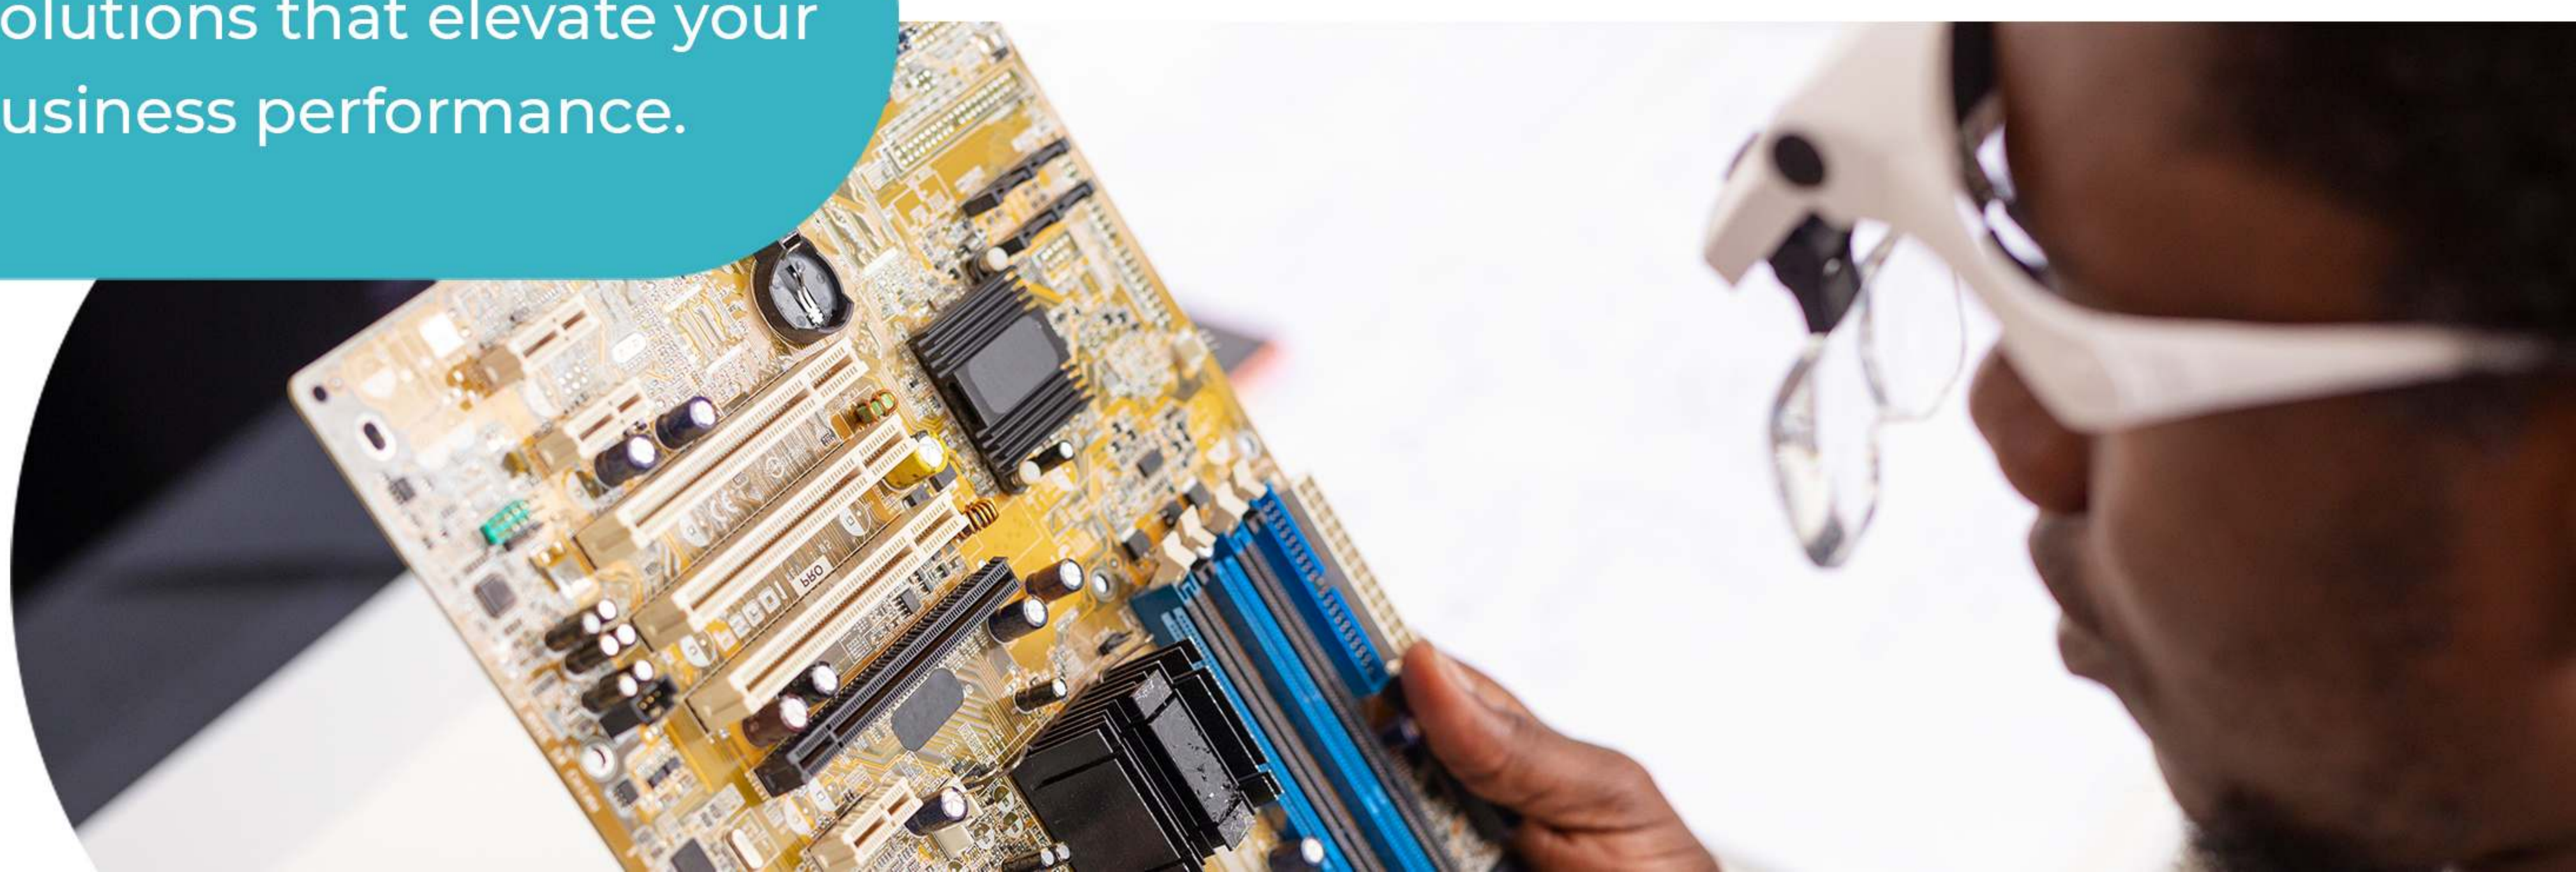

Debt Collection Management System

This Debt Collection Management System leverages Microsoft Power Platform to optimize debt recovery processes, improve team efficiency, and deliver actionable insights. Built on PowerApps, Power Automate, Power BI, and Dataverse, it provides a centralized, automated, and data-driven approach to managing overdue accounts and enhancing recovery outcomes.

Project Management System

This Project Management System is a robust alternative to other project Management Systems, leveraging Microsoft Power Platform to deliver a flexible, user-friendly, and cost-effective solution. Built on PowerApps, Power Automate, Power BI, and Dataverse, it simplifies project planning, execution, and monitoring while ensuring real-time collaboration and insights

Property Management System

This Property Management System leverages Microsoft Power Platform to provide a centralized, efficient, and data-driven solution for managing real estate properties. Using PowerApps, Power Automate, Power BI, and Dataverse, it simplifies property management tasks, enhances tenant experiences, and delivers actionable insights for property owners and managers. It also includes a robust mobile app for conducting property inspections, ensuring operational excellence and compliance

Tech driven strategies crafted to streamline, secure, and scale modern business operations
